"Rodina-Haskovo" JSC, established in 1947, has started its business activity in the field of production of food industry equipment, which includes design, manufacturing, installation and putting into operation as well as training the people to work with the equipment. The long years of experience, the highly qualified and experienced personnel together with our state-of-the-art technology and equipment contribute to our being one of the leaders on the Bulgarian market.

In the 65 years of our successful development we have come to have a crucial role for the prosperity of Bulgarian wine industry as a result of incorporating the latest know-how of the world's best companies as well as of using up-to-date methods and machines for design and manufacturing.

Our products are competitive on the European market, in countries with long-established traditions in wine production such as France, Italy, Portugal and Germany; we work predominantly for companies in these countries but we also regularly supply companies from Armenia, Ukraine, the Former Yugoslav Republic of Macedonia, Romania and Serbia.
